Polychem News You Can Use

POLYCHEM returns from a very successful PACK EXPO Show in Las Vegas. The theme of our booth was "SHIPABILITY."™ Sometimes one has to invent a whole new word to describe the concept, ONE SHIPMENT...ONE INVOICE... ALL PRODUCTS.

With Polychem's Superior SHIPABILITY™, our customers use FREIGHT MAKERS (plastic strapping) to build optimal order quantities. If more weight is needed, corner board is their "ACE IN THE HOLE." Now all their FREIGHT KILLERS (tools, machines, cord, steel, dispensers, closures, kits & etc.) can Ride Free!

Monday morning opening day at PACK EXPO LAS VEGAS

ONE SHIPMENT... ONE INVOICE... ALL PRODUCTS

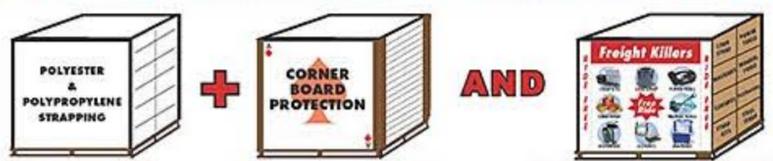

Supply Chain Partners

"SHIPABILITY"™ Defined:

"Where we ship truckloads of SECUREMENT PACKAGING to our Distributors and they ship truckloads of ALL PACKAGING to their customers."

TURN & BURN WITH POLYCHEM SHIPABILITY

POLYCHEM CUSTOMER TESTIMONIALS

Distributor A - Time is Money

"With Polychem 'Shipability' the freight savings is only one thing...the real savings is the time savings achieved by consolidating contacts, suppliers, invoices, etc."

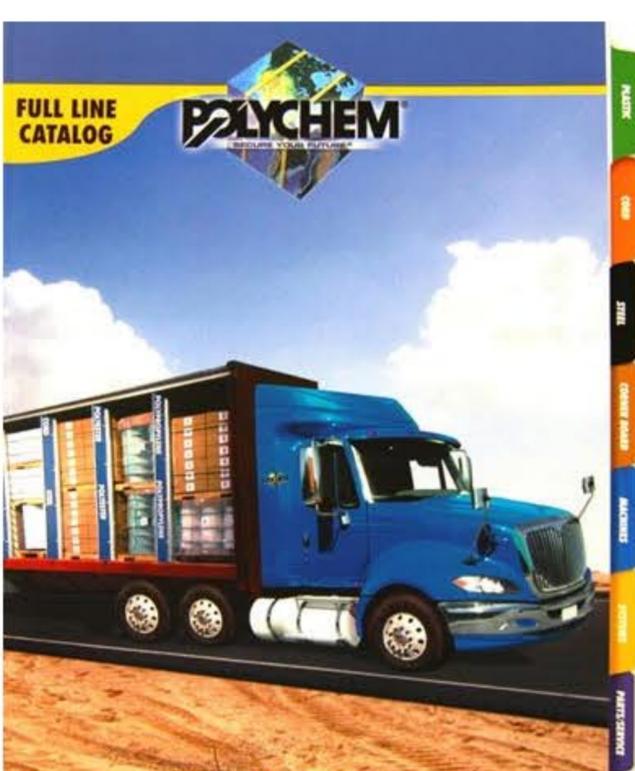

Distributor B - Turn and Burn

"We were buying three or four pallets of Plastic Strapping per month and now with the Polychem 'Shipability' program, we have consolidated our corner board purchases. With Polychem's quick lead time on corner board, our inventory turns have improved significantly."

Distributor C - Freight Killers Ride Free

"We were not a big seller of steel strapping and with the quantities we were purchasing, freight was always an issue. With Polychem's 'Shipability' program, steel strapping and other freight killers now ride freight free."
