Polychem News You Can Use

A Big Thank You to all of our Customers as Polychem celebrates another milestone in our company's history. Incorporated in 1974, for forty years, Polychem has seen a lot of change, however one thing still remains the same, we are still privately owned and operated by the same family as we were back when we first opened for business. Also remaining the same is Polychem's commitment to delivering our customers extraordinary value in all of our products and services.

Over this time period, Polychem has worked to strengthen our customer relationships by expanding our offering from plastic strapping to a multitude of packaging products and equipment, including our new regionally introduced corner board line. With all of these products available for shipment from one warehouse, Polychem's goal is to earn more of your business and to become your largest single source for securement packaging.

Thank You, and best wishes for a successful future!

UPDATE:

Polychem Now Offers Printed Corner Board Products

STOCK BOARD DESIGNS

Polychem/OMS Systems Side Seal Line

For Faster, More Secure Loads. Get a Load of This...

TESTIMONIAL:

Company B recently automated a power tool packaging operation with this Polychem OMS System. We provided a total cost of ownership study that was approved by corporate because of the short payback period. After the project's installation, Company B:

- Re-allocated one person.
- Increased their speed of operation.
- Has new capacity to pursue more business.
- Payback was in less than 2 years.
